

CAIMIEXPORT Pocket

Sistema di scorrimento tradizionale

sistema di scorrimento tradizionale per armadi con ante non complanari

la modularità di sistema differenziata da maggiore a minore portata, consente numerose versioni e possibilità di utilizzo

binari realizzati in alluminio anodizzato

il peso delle ante viene scaricato sul binario superiore

inserimento automatico a scatto della base dell'anta

facilità di regolazione di altezza e verticalità delle ante

Système coulissant traditionnel

système de coulissement traditionnel pour armoires avec portes non complanaires;

système par éléments, à la modularité différent selon le débit, plus haut ou plus bas, qui met à disposition un grand nombre de modèles et un grand éventail d'opportunités d'emploi

rails en aluminium anodisé

le poids de la porte est déchargé sur le rail supérieur

mise en place automatique à dé clic de la base de la porte

réglage de la hauteur et de la verticalité de la porte plus facile

Traditional sliding system

traditional sliding system for wardrobes with not-aligned doors

being modular, the system, which varies according to the load it can carry, lends itself to creating numerous versions with many different uses

rails made of anodised aluminium

the weight of the doors is leaned to the upper rail

automatic insertion with deadlatch of the base of the doors

easy in the adjustment of the height and the door's verticality

Traditionelles gleitsystem

Traditionelles Gleitsystem für Schränke mit Türen nicht komplanarchlieden

Die Modularität des Systems, unterschiedlich durch höhere und niedrigere Tragfähigkeit, ermöglicht zahlreiche Versionen und Verwendungsmöglichkeiten

Schienen aus eloxiertem Aluminium

das Gewicht der Türen wird von den oberen Schienen getragen

ein Schnappsystem ermöglicht den automatischen Einsatz der Türbasis

einfachere Regulierung der Höhe und der vertikalen Lage der Tür

Sistema de deslizamiento tradicional

sistema de deslizamiento tradicional para armarios con puertas no complanares

la modularidad del sistema, que se diferencia por su mayor y menor capacidad, permite crear varias soluciones y ofrece muchas posibilidades de empleo

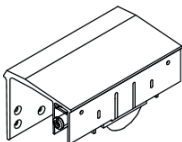

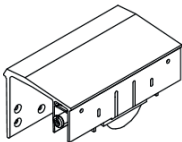

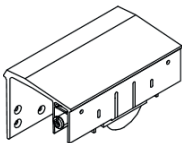

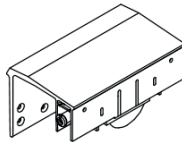

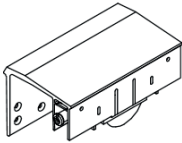

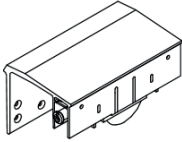

carriles de aluminio anodizado

el carril superior debe sostener el peso de las puertas

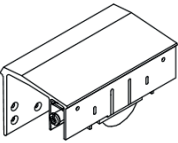

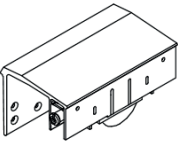

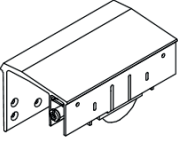

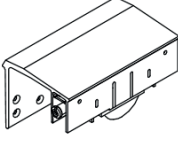

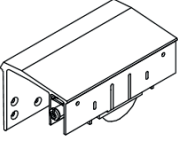

introducción automática con resarte de la base de la puerta

con este sistema es más fácil ajustar la altura y la verticalidad de la puerta

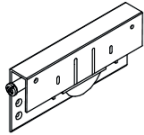

ANTA ESTERNA / EXTERNAL DOOR - WEIGHT TILL 50KG

ANTA ESTERNA / EXTERNAL DOOR		COD.	
EXTRA MINI Spessore anta fino a Door thickness till	18mm 18mm 	PK18	
MINI Spessore anta fino a Door thickness till	23mm 23mm 	PK23	
EXTRA MIDI Spessore anta fino a Door thickness till	26mm 26mm 	PK26	
MIDI Spessore anta fino a Door thickness till	30mm 30mm 	PK30	
MAXI Spessore anta fino a Door thickness till	35mm 35mm 	PK35	
EXTRA Spessore anta fino a Door thickness till	50mm 50mm 	PK50	

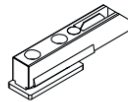

ANTA ESTERNA / EXTERNAL DOOR - WEIGHT RANGE BETWEEN 50KG AND 70KG

ANTA ESTERNA / EXTERNAL DOOR		COD.	
MINI STRONG Spessore anta fino a 23mm Door thickness till 23mm		PK123	
MIDI STRONG Spessore anta fino a 30mm Door thickness till 30mm		PK130	
MAXI STRONG Spessore anta fino a 35mm Door thickness till 35mm		PK135	
SUPER MAXI STRONG Spessore anta fino a 40mm Door thickness till 40mm		PK140	
EXTRA STRONG Spessore anta fino a 50mm Door thickness till 50mm		PK150	

ANTA INTERNA / INTERNAL DOOR - WEIGHT TILL 70KG

ANTA INTERNA / INTERNAL DOOR		COD.	
UNIVERSAL TRUCK Spessore anta fino a 50mm Door thickness till 50mm		PK141	

STOPPER / DAMPER

STOPPER / DAMPER		COD.	
PUK92 Fermo superiore ammortizzato Soft upper damper		PUK92	
PK92 Fermo superiore in battuta Upper stopper without soft		PK92	
ML93 Fermo inferiore in battuta Lower stopper without soft		ML93	

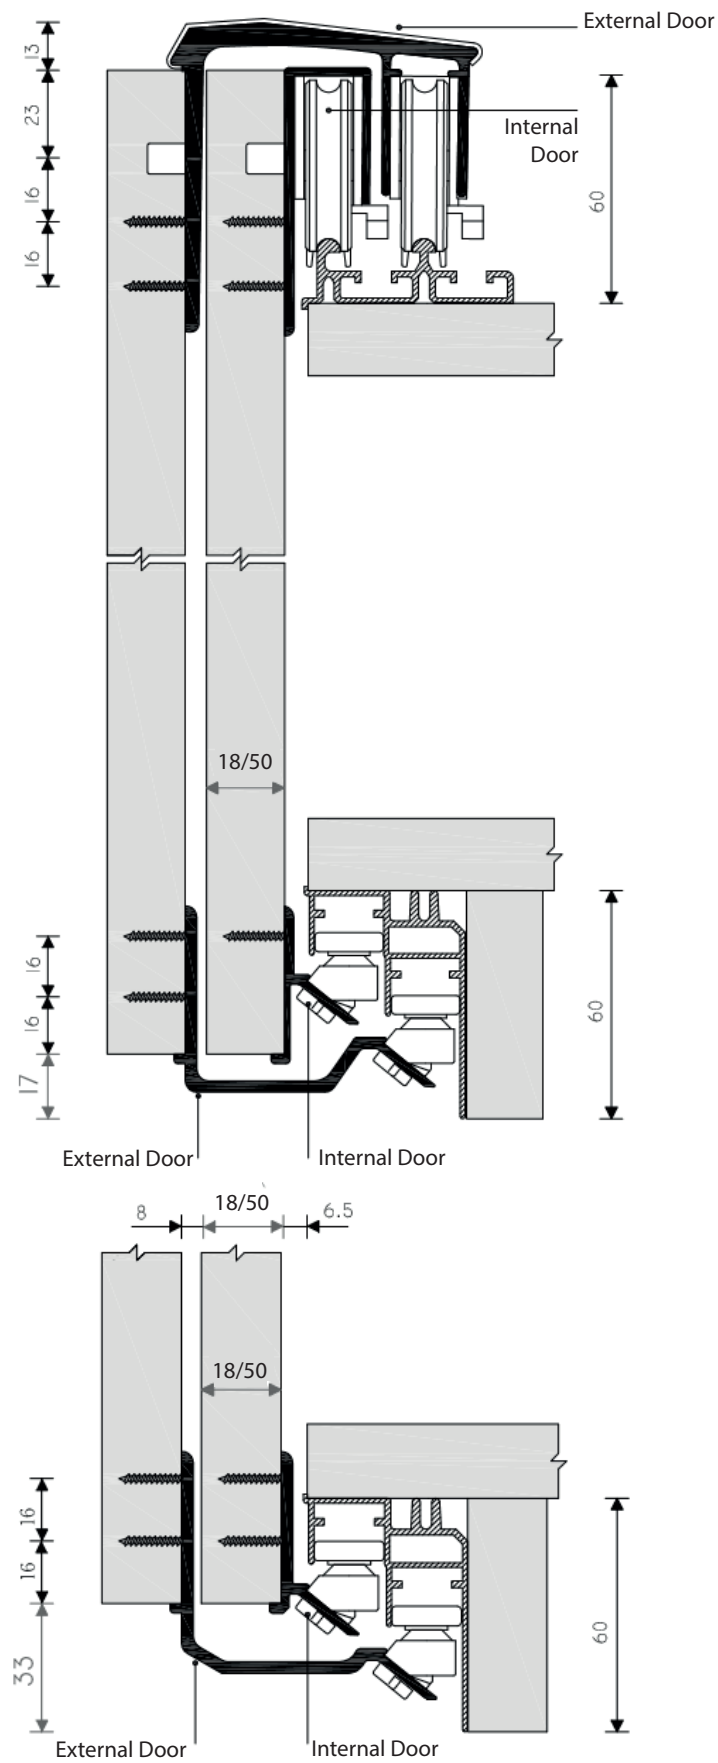

BINARI CON QUICK / RAILS QUICK SYSTEM

BINARI / RAILS		COD.		
MQ10 Binario superiore Upper rail		MQ10		
MQ13 Binario superiore aletta Upper rail with fin		MQ13		
MQ16 Binario superiore Upper rail reinforced		MQ16		
MQ20 Binario inferiore Lower rail		MQ20		
MQ910 Blocco superiore Upper rail hook clip		MQ910		
MQ911 Aggancio superiore Upper rail clip		MQ911		
MQ920 Aggancio inferiore Lower rail clip		MQ920		

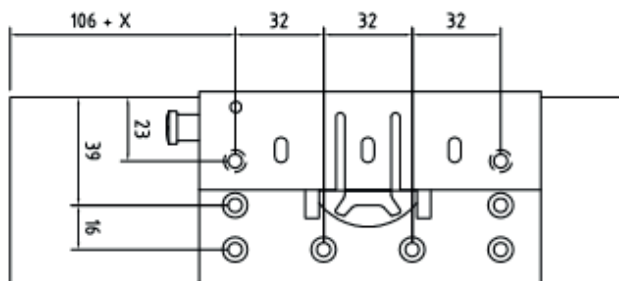

BINARI CON FISSAGGIO A VITI / RAILS SCREW

BINARI / RAILS		COD.		
ML10 Binario superiore Upper rail		ML10		
ML13 Binario superiore aletta Upper rail with fin		ML13		
ML16 Binario superiore Upper rail reinforced		ML16		
ML20 Binario inferiore Lower rail		ML20
